*Serving Northern NM since 1996*

### **Here's some of what I do.**

I'm Santa Fe's (and New Mexico's) first, and longest running independent Final Cut Pro Trainer and systems integrator.

I help people (and organizations) get up and running in the video editing arena.

Everything from getting the system running in the first place, to getting the product out the door, and I can help you do the same.

I also help people out in other areas, including,

- System planning
- Networks (wired, and wireless)
- SAN's
- Enterprise issues
- Training
- Virus Removal
- Hand holding.
- General Troubleshooting
- and much more.
